TUESDAY MORNING, JUNE 26, 1866.

THE NEW MINING BILL.

The following is the new mining bill recently introduced in the U. S. Senate by Mr. Conness, of California. We give it entire, that our readers may judge of its merits or demerits for themselves.—It contains many commendable features, but we object most decidedly to the three per cent. tax as well as the plan of selling the mines by the acre:

A BILL

To Regulate the Occupation of Mineral Lands, and to Extend the Right of Pre-emption Thereto.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

Section 1. That the mineral lands of the public domain, both surveyed and unsurveyed, are hereby declared to be free and open to exploration and occupation by all citizens of the United States, and those who have declared their intention to become citizens, subject to such regulations as may be prescribed by law, and subject also to the local custom or rules of miners in the several mining districts, so far as the same may not be in conflict with the laws of the United States.

Sec. 2. And be it further enacted, That whenever any person or association of persons claim a vein or lode of quartz or other rock in place, bearing gold, silver, cinnabar, or copper, having previously occupied and improved the same according to the local custom or rules of miners in the district where the same is situated, and in regard to whose possession there is no controversy or opposing claim, it shall and may be lawful for said claimant or association of claimants to file in the local land office a plat of the same, so extended laterally or otherwise as to conform to the local laws, customs and rules of miners, and to enter such tract and receive a patent therefor, granting such mine, together with the right to follow said vein or lode, with its dips, angles and variations, to any depth, although it may enter the land adjoining, which land adjoining shall be sold subject to this condition, and upon the further indefensible condition, both to be fully expressed in the patent, that the owners and occupants of the mine so appropriated and held shall pay into the treasury of the United States, in exchange every year until the national debt shall have been paid, three per centum of the net products of said mine, vein or lode, which shall be in lieu of the stamp tax now levied upon bullion extracted from the public domain.

Sec 3. And be it further enacted, That upon the filing of the plat and survey, as provided in the second section of this act, the Register of the Land Office shall publish a notice of the same in a newspaper published nearest to the location of said claim, and shall also post such notice in his office for the period of ninety days; and after the expiration of said period, if no adverse claim shall have been filed, it shall be the duty of the Surveyor-General, upon application of the party, to survey the premises and make a plat thereof indorsed with his approval, designating the number and description of the location; and upon the payment to the proper officer of five dollars per acre, the Register of the Land Office shall transmit to the General Land Office said plat, survey and description, and a patent shall issue for the same thereupon; and the Surveyor General shall receive for such service such compensation as is allowed by law, with mileage not to exceed at legal rates the amount chargeable from the county seat of the county in which the claim may be situated, to the said claim.

Sec. 4. And be it further enacted, That when such location and entry of a mine shall be upon unsurveyed lands, it shall and may be lawful, after the extension thereto of the public surveys, to adjust the surveys to the limits of the premises, according to the location and possession and plat aforesaid, and the Surveyor General may, in extending the survey, vary the same from a rectangular form, to suit the circumstances of the country and the local rules, laws and customs of miners: Provided, That no location hereafter made shall exceed three hundred feet along the vein for each locator, with an additional claim for discovery to the discoverer, with the right to follow such vein to any depth, with all its dips, variations and angles, together with a reasonable quantity of surface for the convenient working of the same, as fixed by local rules.

Sec. 5. And be it further enacted, That the President of the United States be, and is hereby, authorized to establish additional land districts and to appoint the necessary officers under existing laws, wherever he may deem the same necessary for the public convenience in executing the provisions of this act.

Sec. 6. And be it further enacted, That whenever adverse claimants to any mine, located and claimed as aforesaid, shall appear before the approval of the survey, as provided in the third section of this act, all proceedings shall be stayed until a final settlement and adjudication in the courts of competent jurisdiction, of the rights of possession to such claim, when a patent may issue as in other cases.

Sec. 7. And be it further enacted, That whenever, prior to the passage of this act, upon the lands heretofore designated as mineral lands, which have been excluded from survey and sale, there have been homesteads made by citizens of the United States, or persons who have declared their intentions to become citizens, which homesteads have been made, improved and used for agricultural purposes, and upon which there have been no valuable mines of gold, silver, cinnabar or platinum discovered, or which are properly agricultural lands, the said settlers or owners of such homesteads shall have a right of pre-emption thereto, and shall be entitled to purchase the same at the price of one dollar and twenty-five cents per acre, and in quantity not to exceed one hundred and sixty acres, or said parties may avail themselves of the provisions of the act of Congress approved May twentieth, eighteen hundred and sixty-two, entitled "An act to secure homesteads to actual settlers on the public domain," and acts amendatory thereof.

Sec. 8. And be it further enacted, That upon the survey of the lands aforesaid, the Secretary of the Interior may designate and set apart such portions of the said lands as are clearly agricultural lands, which lands shall thereafter be subject to pre-emption and sale as other public lands of the United States, and subject to all the laws and regulations applicable to the same.

Sec. 9. And be it further enacted, That whenever, by priority of possession, rights to the use of water for mining, agricultural, manufacturing, or other purposes, have vested and accrued, and the same are recognized and acknowledged by the local customs, laws and the decisions of courts, the possessors and owners of such vested rights shall be maintained and protected on the same; and the right of way for the construction of ditches and canals for the purposes aforesaid is hereby acknowledged and confirmed: provided, however, that whenever, after the passage of this act, any person or persons shall, in the construction of any ditch or canal, injure or damage the possession of any settler on the public domain, the party committing such injury or damage shall be liable to the party injured for such injury or damage.

Sec. 10. And be it further enacted, That the right of way for the construction of highways over public lands, not reserved for public uses is hereby granted.

THE CENTRAL PACIFIC RAILROAD.—A correspondent of the *S. F. Bulletin*, who was lately on the teachers' excursion, thus speaks of this road:

The work on the great Central Pacific Railroad, to see which was one of the chief objects of the excursion, is progressing much more rapidly than the public generally are aware. The present terminus of the road, as before stated, is four miles this side of Dutch Flat, but the intention is to run cars to Crystal Lake, twenty miles further on, by the 15th of September, and the company expect to reach the summit of the Sierras before Winter sets in. Watson, who conducted the first train over the road, is sanguine of being able to run a passenger train into Virginia in eighteen months or two years from this date. The worst part of the entire route from Sacramento to Salt Lake—that portion between Colfax and Dutch Flat—is already built, and there are 11,000 Chinamen at work on the road between Colfax and the summit of the mountains. In no place will the grade be over 115 feet to the mile, nor that only for a distance of four miles beyond Dutch Flat. The Baltimore and Ohio road has a grade of 116 feet to the mile, and the Central Pacific Company are allowed by the Government to reach the same grade and curvature as that road. The road can be built on the east side of the Sierras much easier than on this side. After descending to the Truckee river, 1,500 feet, the remainder of the route to Virginia is as easy of construction as from Sacramento to Newcastle, which is only 925 feet above the level of the sea. Between Colfax and Dutch Flat are several deep ravines that had to be crossed by bridges, but after getting beyond the latter place the mountains are larger, and by winding around them there are fewer bridges to be built and gulches to be filled, making the work much less expensive. One of the bridges between Colfax and Secrettown is a quarter of a mile in length and from 80 to 115 feet high. Another of about the same dimensions is just being completed between Secrettown and Dutch Flat. Almost the entire work of digging is done by Chinamen, and the Directors of the road say it would be impossible to build it at present without them. They are found to be equally as good as white men, and less inclined to quarrels and strikes. They are paid $30 per month and boarded, and a cook is allowed for every twelve men. They do not accomplish so much in a given time as Irish laborers, but they are willing to work more hours per day, and are content with their lot so long as they are promptly paid. If the work on this road continues to progress as fast as it has done during this season, there is little doubt that the cars will be running from Sacramento to Salt Lake inside of three years.

HOW THE CHOLERA PATIENTS ARE TREATED IN NEW YORK.—"Every foot of room on the hospital ship" at the quarantine is officially reported to be "full of the sick and dying." Yellow fever has arrived on a brig from Porto Rico, and there is no place for yellow-fever patients unless they are put in one ward with cholera patients. And while this is the state of things in the hospital, the crowded emigrant ships, which have made the voyage from Europe, from which patients are every day taken "in a moribund condition," are tossing up and down in the lower bay, and the Board of Health find it impossible to get the infected vessels emptied and the sick, once for all, separated from the well. There is no doubt that this state of things is disgraceful, and there is no doubt that if neither the city of New York, nor the State of New York, nor the United States Government, can legally get land on Coney Island or Saudy Hook, or some suitable place, for the erection of quarantine buildings, then they would do well to join together, take it illegally, and what money is spent in litigation will be saved in the bills for coffins and burial hammocks. On Saturday and Sunday there were thirty-eight new cases of cholera and fifteen of them resulted in death.—*N. Y. Nation.*

IT seems probable that a new quarantine war is to be opened, which will prove of engrossing and enduring interest. A portion of Staten Island was "occupied" last night by the Health Commissioners, who took with them a sufficient force to "hold" the territory they acquired, also the means of subsistence, and all other needful appliances for maintaining a successful campaign, and their purpose is, to erect and defend if need be, by force and arms, suitable buildings for the use of the quarantine department. Further developments are looked for with warm anticipation.—*Tribune, 6th inst.*

A COUPLE of Captains became desperate in a saloon in New Orleans, a few days since, and their friends provided them with bowling pieces for a bloody duel. They stood apart, and both combatants fell, one covered with mush and the other with molasses, the second having loaded the pieces with that sort of "rifles."

A number of young Germans engaged in commercial pursuits are now compelled to leave London, having received orders to join the Prussian and Saxon armies. If they do not obey the summons they lose their rights of citizenship, and any property they may inherit is forfeited.

NEW ARRANGEMENT OF THE UNITED STATES NAVAL SQUADRONS.—By a recent order of the Secretary of the Navy the following permanent squadrons are established, having respectively the limits designated upon the squadron charts, viz:

First—North Atlantic squadron, embracing what was known as the Home or West India squadron.

Second—European squadron, embracing the Atlantic coast of Europe, the Mediterranean and part of the west coast of Africa.

Third—South Atlantic squadron, embracing part of the west coast of Africa and the southwest coast of South America.

Fourth—South Pacific squadron, embracing the west coast of South America and Australia.

DOING A LUCKY THING.—It is well worth a person's while to save the life of an Emperor of Russia. The young man who recently averted the assassin's aim at the Emperor Alexander, apart from being elevated to the rank of nobility, has received an amount in money equal to $12,000,000 for the support of his new dignity. He was, at the time of his fortunate interposition, foreman at a hatter's. No doubt he has felt his good fortune before this.

THE new theatre, The Chatelet, in Paris, is crammed, every night, from floor to ceiling, to witness the brilliant marvels of a new piece called "The Magic Lantern," and in which one of the prettiest actress of Paris, Mlle. Eugenia, personates our common mother Eve, with the aid of the smallest modicum of green crape whose existence could hope for recognition by the Censors of the Police.

THE Springfield (Mass.) *Republican* is responsible for the following shocking paragraph: "Some enterprising manufacturer is introducing a hoop skirt which quite surpasses the 'tilters.' Its advantages are that the slightest movement shows the ankles, and a brisker one the knees, while a quick turn of the body, to say nothing of windy days, exhibits a great deal more."

A BUFFALO special says: "On the arrival of the Canadian troops at Fort Erie, after the Fenian retreat, the United States Consul was grossly insulted and fired upon by a British officer, while standing in his door, with the United States flag waving over his house. He has demanded an apology.

The Daily Union Reflector

Local and Miscellaneous.

TO ADVERTISERS.—The Union Reflector is the pioneer daily newspaper of Utah. Its immense circulation in every mining camp and city of Montana and Idaho, (to which it gives the telegraphic despatches a whole week ahead of the Pacific papers,) makes it the most advantageous medium for advertising in these four contiguous Territories.

We never display advertisements in double columns. With our patrons above please remember this rule of our office. It will save them and us considerable annoyance and correspondence.

HON. E. B Washburne of Illinois has been renominated for Congress.

CAPTAIN Grimes, A. Q. M. at Camp Douglas, invites proposals for building material at Camp Douglas.

MR. MASON, the Confederate Envoy to Great Britain, is now in Montreal, waiting for the President's pardon.

THE health of Charles Sumner and Thad. Stevens is such as to excite the apprehension of their friends.

MESSRS. Duggins & Crocheron have opened a new ice cream saloon on Second South Temple street.

THE Emperor of the French was born at the Tuileries on the 20th of April, 1848, and has now, therefore completed his 58th year.

THE Deer Lodge, bound for the Upper Missouri, passed here at 10 a. m. on yesterday, but did not make a landing. She had but few passengers, but appeared to be heavily laden.—*Atchison Champion 12th.*

RHODE ISLAND has a model Legislature. It adjourned at Newport on Friday, after a session of four days, during which time no less than eighty-three acts and resolutions were passed.

THE election in Oregon and Nebraska are so close that it will require an official canvass to decide it, but it is generally believed that the Union party has carried both elections by a small majority.

A Philadelphia paper says that the Hon. Frederick Seward is to be a candidate for Governor of New York on the Conservative Republican side, at the next election.

AMONG the divorces granted during the late term of the Supreme Court of New York was one against Fitz Hugh Ludlow, on the petition of his wife, Rosalie D. Ludlow.

SEE advertisement of Watch Lost.—The finder will confer a great favor by leaving the same at this Office, as the watch is more valued as a family relic, than otherwise. A liberal reward will be given.

WE have become so used to running the VEDETTE without a telegraph report that we shall hardly know what to do when it commences to come. However, we hope to enlarge our space within ten days, when we can accommodate all—both readers and advertisers.

TILTED HOOPS.—The editor of the *Enterprise*, or some other Nevada paper, says this popular and peculiar fashion has at length reached our city. Last Sunday an enterprising young lady appeared on Main street, thus arrayed.—We caught sight of her as she disappeared around a corner, and with the poet of old was tempted to exclaim,

"I saw her but a moment,
Methinks I see her now."

At Public and Private Sale, 400 Horses and breed Mares.

Public Sale days, Wednesday and Thursday, July 6th and 7th, 10 A. M., at Emigrant Corral, Great Salt Lake City, Utah.

Private Sale every day until the 6th of July at the herd ground, six miles west of the Jordan Bridge on the Lake road, where the undersigned or his agent will be, to attend to the sale of Stock.

This Stock consists of

100 head of one and two year old Colts,

200 head breed mares from three to six year old, one hundred yet to foal,

100 head of saddle, vaquero, and carriage horses.

The stallion was sired by the celebrated English hors "Pride of England," imported by Sam. Merritt of Alameda county, California, in 1861, at a cost of eight thousand five hundred ($8,500,) dollars, and is of thorough blood draft stock. The dam was of full blood, Kentucky Whipstock, owned by the same man, making the best cross breed for this Territory to be found, having both speed and draft combined. The horse will be 3 years old next October; he is 17 hands high, blood bay color, black mane and tail, weighs 1500 pounds. He can be seen at the Eureka Stable, 2d East Temple street, until the day of public sale.

Terms of Sales Cash; Flour and Wheat on Delivery.

Flour to be of the best brand, put up in 98 lb. sacks, ready for market; taken at the rate of $6 25 per sack.

Wheat to be of good quality, for which I will allow $2 12½ per bushel.

This is the best opportunity ever offered to farmers and stock raisers in this Territory, to purchase fine stock at low rates, being the best band of stock ever driven into this Territory from California, none of which is less than one-half American blood, most of them ¾ and ⅞ American; all of which must and will be sold at private and public sale.
